Delivers reliability, performance, and fuel savings.

Westport is the largest Qualified Vehicle Modifier partner in Ford’s QVM program, providing OEM-quality engineering and design. Our compressed natural gas (CNG) fueling system offers equivalent fuel economy and mileage, plus a combined 60+ mile driving range compared to gasoline-only F-350 chassis cab.

**HIGHER STANDARDS**

**SAFETY:** All Westport WiNG™ Power System vehicles undergo the same safety testing required for Ford OEM trucks.

**WARRANTY:** Under Ford’s QVM program, the Ford warranty remains intact.

**DEALERS:** Order and take delivery of your F-350 Westport WiNG Power System through your local Westport authorized Ford Dealer.

**SERVICE:** Westport has over 200 service locations across North America with technicians fully trained on Westport WiNG Power System maintenance.
